limi	This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following tations and conditions:			
that per south of the control of the	This permit is issued subject to all existing rights on the source. It is derstood that the amount of water herein granted is only a temporary allowance and it the final water right obtained under this permit will be dependent upon the riod of use and the average number of livestock served from the waters of this arce. It is further understood that this right must allow for a reasonable vering of the static water level at permittee's well due to any other ground water relopment in the area. The well shall be equipped with a 2-inch opening for usuring depth to water. If well is flowing, a valve must be installed and intained to prevent waste. The State retains the right to regulate the use of the earlier herein granted at any and all times but does not take responsibility for the earlier from the federal range.  This Permit does not extend the permittee the right of ingress and egress on oblic, private or corporate lands.  The well must be sealed with cement grout, concrete grout or neat cement from bound level to 100 feet.  The issuance of this permit does not waive the requirements that the permit does obtain other permits from State, Federal and local agencies.
